

2021 Gate Painting Project

Dear Whitney Oaks Residents:

The Board of Directors has recently approved a gate painting maintenance project. Over the next few weeks *Magna•Kote Electrostatic Painting* will be painting the vehicle and pedestrian gates.

Maps, tentative schedules, and corresponding gate numbers are listed on the following pages for your reference. Please do make note of the gate number you use most often and the scheduled service date for the gate.

As with every project, we would like to thank you in advance for your patience and understanding while the project is completed.

SOME GENERAL PROJECT ADVISEMENTS

Safety First

It is important that we keep everyone safe. Please be on the lookout for workers in the gate areas and drive slowly. The gates will be held open during the painting work. Pedestrian gates will also be propped open after painting to allow for a nice set/cure. Blue Knights Officers will drive the scheduled gate locations and close any opened pedestrian gate in the evenings.

Weather or not we like it!

Mother Nature can always give us a few surprises. Although we may have a perfect plan set, weather conditions can always provide some unexpected delays.

Delays can be caused by wind, excessive heat, and rain/water.

Preparation is Key

The crew will be onsite in the early morning to start their prep-work for painting. They expect to start painting at about 7AM. There will be some noise around the gate area as they use their equipment.

All Dolled Up

The gates will be painted in black and detailed with reflective tape to ensure safe entry and exit of each gate.
