

To: All Unit 44 Residents & Owners
RE: Shrub Removal Project

Project Information:

The Board of Directors and Landscape Committee have approved shrub removal maintenance work in your area. BLM crews will be removing several unhealthy or ill-placed shrubs. We are sure you have noticed shrubs being marked over the last couple of months.

Timing: Week of August 10-14th

It is recommended that residents:

- keep pets inside during work and/or if not at home.
- keep windows closed during work.
- keep vehicles parked in the garage.
- Please do note that with any type of removal project, noise can be a factor.

We truly appreciate your understanding and patience while the work is completed.
If you have any questions or concerns, please reach out to Laura or Mikki at The Management Trust.
