

# To: All Unit 44 Residents & Owners

## RE: Tree Removals & Pruning

### Project Information:

The Board of Directors have approved tree maintenance work in your area. Arborwell crews will soon start a tree pruning and removal project.

The crews will start with tree removals first, then work on pruning. The stump grinding crew will likely be out approximately 10 days after the pruning crew has finished their work.

For additional information regarding specific trees, please review the link below provided by Arborwell.

<https://app.arbor-note.com/index.cfm/asset/4663CC43-D597-485D-A91648C83DD7220C/cmap?marker=1>

### Timing:

- March 25<sup>th</sup> - 31<sup>st</sup>
- 7:30AM – 4PM; Daily

### It is recommended that residents:

- keep pets inside during work, or between 7:30am and 4pm and/or if not at home.
- keep windows closed during work, or between 7:30am and 4pm.
- don't park under trees to be pruned or removed between 7:30am and 4pm.
- Please do note that with any type of tree removal and pruning, the crews will be using large power equipment. The noise levels may be disruptive during the project work hours. Please plan accordingly.

We truly appreciate your understanding and patience while the work is completed.
